-  Configurable Reports

## CUSTOMER SERVICE:

-  Dedicated Concierge Liaisons
-  Liaison Assisted Set-Up
-  24/7 Help Chat
-  In-App Help AI
-  In-App Training Videos
-  In-App Help Articles

## Full Fire Reporting and NEMESIS Ecosystem

Stop charting the same data twice. Enjoy a two way NFIRS + ePCR integration. Start a NEMESIS report from the NFIRS report, OR start a NFIRS report from a NEMESIS report. Seamlessly export all pertinent NEMESIS run data to any NFIRS report.

## WHY TO CHOOSE NFIRSOFT

### Field Friendly

Our platform is easy to use and works on any device, even without internet connection.

### NFIRS Compliant

We are fully compliant with the latest NFIRS requirements and regulations.

### Do reports in 5 min

With our configurable form templates and smart autofills (based on incident type) and other features. Get your reports done fast, the right way, the first time so you can get back to what matters most, your community's safety.

### Works Without Internet

Start reporting in the field when you're on the scene of the incident. It doesn't matter what device you have available, even if you don't have mobile data or Wi-Fi.

### 24/7 help chat

Stop getting those calls at 3am in the morning. Anyone in your department can access a 24/7 help chat with real Unified Concierge Liaisons with fire department experience on the other end where they can receive training or technical support.

### Secure & Compliant

We use all top-of-the-line secure technologies. Our fire reporting and ePCR are more than just compliant with your State, NEMESIS V3, and HIPAA requirements.

### Nemesis V3.5 Compliant

We are fully compliant with the latest NEMESIS requirements and regulations.

### Works on any device

Our platform works on any device. It doesn't matter if it is an old PC at the station or an iPad, Tablet, Cell Phone, or Chromebook in the field.

### Admin Configurable

Unified provides your department with the ability to configure our platform to your needs, whether it's incident-based reporting templates, incident-based smart autofills, dropdown options, and more.

### Location PrePlans & Occupancy

Keep all your location information in one place. Search for your known locations, autofill addresses, review PrePlans & Occupancy information right from the CAD generated NFIRS report.

## **AutoSave**

Stop wasting your time by losing your data. Unified has automatic autosave so you don't have to keep re-reporting the same information.

## **Smart Address Autofill**

Use Google Maps integration to easily find the correct full address information in a few keystrokes.

## **Voice-to-Text Narratives**

Utilize the convenience of hands-free dictation by just talking to your device so it can do the typing for you.

## **Digitized Paper Forms**

Keep all of your department level paperwork in the same place by making them a part of our digitized paper forms, accessible right from the report and autofilled with any of the information you already documented.

## **Dashboard Reporting**

See all of the metrics you care about in a one click dashboard environment.

## **Real Time Validations**

Save time and frustration by validating your documentation as your filling out your report instead of waiting until the end.

## **IntelliSearch**

Handle long drop-down options with ease with our google search like auto-complete feature for drop down options

## **Narrative Generator**

Easily write your narratives by using our Narrative Generator's templates, smart autofill, & outlines.

## **Upload attachments & photographs**

Our platform allows you to upload attachments and photographs right from the scene, straight to the NFIRS report so you can document photos of the building, possible sources of ignition, burn patterns, and other evidence.

## **Advanced QA/QI**

Use drag and drop functionality to create your own QA center. Search, sort, and/or filter by any field in the report. Assign the report back to the crew for corrections by using our QA workflow.

## **Delivered Reports**

Subscribe to reports to be sent to your inbox on a regular basis.

## **Digital Witness Statements & Signatures**

Gather witness statements and signatures digitally while you're on scene and save them with the report, even offline.

## **Configurable Template/ Layout**

You can change dropdown options and hide any fields you don't need using our easy for configuration menu, all without talking to customer support or a developer.

## **Mutual Aid Portal**

Unified fire has an interface dedicated to the read-only access of incident data for departments responding to the same incidents.

## **Multi-Station Support**

Unified supports multiple station data, including role-based security profiles for data access.

## **CAD integration**

CAD integrations are supported so that all the relevant fields in your report are pre-populated.

## **County Interface**

Unified fire provides an interface where counties can access Unified Fire read-only data based on geographical incident location.

## **Smart Autofill fields based on incident type**

Our easy-to-use form configuration menu allows you to customize your reporting based on your department. You can pre-fill any field based on the incident type without talking to customer support or a developer.

## **Configurable Validations**

With our easy-to-use form configuration menu, you can change what fields are required for each incident type.

## **Data Warehouse**

Access a database in the cloud where you can connect any third party reporting platform.

## **Data Import**

We support the import existing data using multiple data formats.

## **No Servers to Manage**

Our platform works in the secure cloud, no servers to secure and manage.

## **Easy to Manage**

Admins enjoy a clean and simple interface that is easy to read, find what you need, and manage your account.

## **Device Security**

Easily Manage which devices can access your account.

## **No Installation Necessary**

You don't need to be an IT expert to start using our platform, simply log in and start using it.

## **Industry Leading Customer Service**

Not only is our software easy to learn, but we assign Dedicated Concierge Liaisons to every customer. Our Dedicated Concierge Liaisons are seasoned industry veterans who know your industry and work to maximize your platform.
